Ms. HE Qingye said, the extensive research and consultation on the revision of the *Civil Procedure Law* reflect the rigorous and pragmatic of the legislature in the revision work. Procedural justice is the premise and important guarantee to realize fairness and justice. A civil procedure law which takes accounts of fairness, efficiency and national conditions is an important embodiment of the law at national level. As a professional litigator, it's my honor to be able to make suggestions and contribute to the construction of the laws for the country.

Ms. LIU Fang, as an attorney specialized in the field of cross-border transactions, M&A and dispute resolutions, hopes that her experiences could not only benefit her clients, but also contribute to the development of China's legal system. As the old saying goes, "to know yourself and counterparts, to be invincible in battles." This wisdom is not only embodied in the handling of specific foreign-related cases, but also in the forward-looking construction of macro-level laws and policies.

Tiantai Law Firm is one of the largest full-service law firms in China, with 29 offices across mainland China. The firm will continue to actively undertake its social responsibilities, participate in the legislative discussions through various channels, and strive to make greater contributions to the national legal construction.
