Work Experience

> I have 10 years' teaching experience in a college as a senior lecturer and 15 years' experience of an attorney since 2001 and 12 years' experience specializing in Marriage, Family and Inheritance Law since 2004. I am one of the earliest attorneys specialized in Marriage, Family and Inheritance Law in Beijing and even in China. I have handled more than one thousand various divorce and inheritance cases, etc. as an attorney. I am very experienced in handling the family cases and proficient in proceedings in family cases. On one hand, I always try to help my client to strive for maximum benefits and minimizing loss by my suit skills within the law. On the other hand, I never give up mediation measures to promote conciliation between the two parties. Therefore, I have good reputations in the field of family law in China.

The case of divorce disputes between Shi and Chen, which was handled by me in 2015, was collected in the most latest and most authoritative 'Selected Cases by People's Court' (No.4, 2015, published in May, 2016).

Other major and difficult dispute cases I handled in process include the Inheritance Disputes by Xu Linlu, the last disciple of Qi Baishi, the famous Painter.

I am the member of a research group on family trial in 2015. This research project is sponsored by Supreme People's Court.

I took part in making up the lawyer's code of conduct, i.e. 'Guide to Lawyers in Handling Marriage and Family Cases' and 'Guide to Lawyers in Handling Inheritance Cases'
